#### [SECOND DESPATCH ] An Immense Gathering of Spectators-Seventy Thousand Men in Line.

WASHINGTON, Nov. 20, P. M.—It is supposed that the grand review to-day was witnessed by from swenty to thirty thousand spectators, which, considering the remotemess of the locality from the city, was indeed a wonderful turn-out.

As no passes were required it was free to every one who could procure a sonveyance, or who chose to walk, the distance being about eight miles by the route which they were obliged to take. The roads were guarded the entire distance, so that civilians without written permission could not diverge from the prescribed limits of travel. A number of carriages broke down, and several persons were seriously injured, besides other minor casualties.

General McCtellan and staff left his headquarters at half past 9 o'clock this morning, escorted by Major Barker's Mc-Clellan Dragoons, who made their first appearance as a squadron, and also the Second and Fifth Regiments of United States Cav-

The President and Cabinet, together with the Foreign Ministers and their ladies, likewise proceeded at an early hour to the review ground at Bailey's Cross Roads. Just previous to the review a salvo was

fired from fifteen batteries of artillery.

The spectators viewed the splendid display from Munson's Hill and the vicinity. The divisions, seven in number, when in position, occupied a semi-circle of about four miles—a dense body of all arms of the | Church, at the same hour.

General McClellan and staff, in company with the President and Secretary Cameron and Secretary Seward, all on horseback, rode rapidly along the lines, meeting with continuous and enthusiastic cheers from the soldiers. Subsequently the distinguished party returned, and taking prominent positions, the various divisions passed in review, commencing at half past one, P. M. They moved in the following order by batallion, closely massed: General McCall's Division-Twelve regi-

ments of infantry, two batteries, and one regiment of cavalry. General Heintzleman's Division-Seven regiments of infantry, two batteries, and

one regiment of cavalry.
General Smith's Division—Ten regiments of infantry, two batteries, and one regiment

of cavalry.

General Franklin's Division—Twelve regiments of infantry, three batteries, and

one regiment of cavalry. General Blenker's Division-Eleven regiments of infantry, two batteries, and Colonel Decker's regiment of mounted rifle-

General Fitz John Porter's Division-Thirteen regiments of infantry, three batteries, and two regiments of cavalry.

General McDowell's Division-Eleven regiments of infantry, three batteries, and one regiment of cavalry.

Making in all a total of seventy-six regiments of infantry, seventeen batteries of artillery, seven regiments of cavalry, and one regiment of mounted riflemen-making in all a grand total of perhaps 70,000 men -forming only a portion of the Grand Army of the Potomac.

The time occupied by this immense mass of troops in passing was three hours, the divisions in order returning to their respective encampments.

To guard against any possible surprise while the divisions were forming the pickets on the out posts had been considerably strengthened.

This was the largest body of troops ever before reviewed on this continent. They were all fully equipped and every man supplied with forty rounds of cartridges. Every division was accompanied by ambulances, so that every branch of the ser-

vice might be represented. The general appearance of the troops and their movements elicited the highest commendation from all observers.

A Thrilling Prophecy—How Fearfully and Rapidly it is Being Fulfilled!

In last February Alabama secoded! That brave old man, Senator Clemens, who had until then, breasted all the storms of wild fanaticism, and clung to the flag of our Union, yielded to the popular clamor, and unsheathed his sword in a cause he hated and one he knew could not succeed. He wrote the following to a friend:

"We are out; we have bid adien to the Stars and Stripes, and abandoned the high privilege of calling ourselves American citizens. I am not ashamed to confess that I could not restrain my tears when the old : banner, which I have followed through so many dangers, was torn down and the flag | ting ministers were Revs. Ulrich, Essick of Alabama was raised in its place. I cannot restrain them now when I am writing but the deed is done-a new era has dawned and all that I can promise is that no effort shall be spared on my part to prevent it from becoming an era of disgrace. If we are not involved in a war we soon will be. There is no hope of peace; and he is but little better than a madman who dreams at long exemption from invasion. I shall meet it when it comes, as a soldier should, and fight through it as long as a hope remains. When everything is lost, as I fear it may be, unless wiser counsels should provail than those which have heretofore directed us; I shall drag my body to the Hicks, to assemble on Tuesday next. They nearest battle field, and lay down a life which has lost its value."

How swittly, has his prediction been verffied." Bre that echo of his voice, pleading to the fanatics" to "stop!" had died away, the cry ran out, to arous! A Stare then prosperous is now bankrupt; all the horrors of war are upon them, business rained. and in addition to the resiless nights they ville, Kentucky, pass for fear of a servile insurrection, they will wake same morning and hear the roar of Folorol cannon at Mobile. The scene was a most impressive one. They were all drawn up in line on the deck. Captain Rodgers and Mayor Cranston stationed themselves opposite each other on the deck, each with a copy of the Holy Scriptures in his hand, when the Midshipmen passed down two and two, each pausing to kiss the book as they passed the gentlemen above named.— They had each previously taken the outh by the uplifted hand.

Preparations for Congress. The President is very busy on his message, only devoting two hours each day to long document. The Sceretaries and their assistants are also busily engaged upon their reports, which are to be presented to the President to accompany his message. The condition of the various departments is more flattering now than at any time since the commencement of the war, and their reports will be of commensurate interest.

From the Eastern Shore of Virginia we have intelligence of the full and bloodless success of Major General Dix's expedition into the counties of Account and Northampton. The advance guard of the expeditionary force which went forward under a flag of truce, and distributing Gen. Dix's proclamation, had been received with joy by the Union men, and with prompt submission by the Secessionists. In Accomac the militia forces, said to number three thousand, had disbauded and dispersed. Many professed to be loyal, and to have been unwillingly forced into service. It was believed that a similar success would attend the expedition into Northampton county, and that both counties would peaceably and quietly return to their allegiance to the United States.

WASHINGTON, Nov. 22.—The reconnot tering and foraging party under Genera' Brooks, which went out from Gen. Smith's division yesterday, took possession of Flint Hill and the surrounding country by throwing out pickets in different directions to prevent a surprise, while the forage-master gathered and brought away seventy loads of hay, having with him not less than ninety wagons. The only evidence of the presence of the enemy was one regiment of infantry, a squadron of cavalry and one battery, seen from a prominent position between Fairfax Court House and Centreville, in a westward direction, about eight

miles beyond our present outposts. The party returned late last night having been altogether successful, and met with no casualties whatever.

The American Question. VHAT LORD PALMERSTON, THE BRITISH PREMIER, SAYS ON THE SUBJECT.

At the Lord Mayor's banquet on the 9th inst., the Mayor proposed the "Foreign Ambassadors," coupled with the name of Mr. Adams, the American Minister, who the manner of a steamboat cabin, with replied that his mission in England was to promote and perpetuate the friendly relaions of the two countries.

Lord Palmerston said, although circumstances may, for a time, threaten to interfere with the supply of cotton, the temporary evil will be productive of permanent good. We shall find in various quarters of the globe a sure and ample supply, which will render us no more dependent. We witness with affliction the lamentable differences among our American cousins, but it is not for us to pass judgment in their dispute.

Lord Palmerston, in conclusion, expressed the hope of a speedy restoration of harmony and peace.

The New York Tribune has a letter from Hatteras, stating that North Carolina, by a Convention of Delegates representing forty-five counties, has declared a Provisional Government, and has entirely repudiated the Secession act of that State, re-affirming her loyalty and devotion to the Constitution of the United States. The Convention met at Hatteras on Monday last .--The act passed contained several sections, the substance of which is as follows : The first declares vacant all the offices of the State; the second names Marble Nash Taylor Provisional Governor; the third adopts the Constitution of the State, with the statutes and laws contained in the revised code of 1856; the fourth repudintes the Ordinance of Secession passed at Raleigh on the 20th of May, together with all other acts then adopted; the fifth directs the Prorisional Governor to order a special election for Members of Congress; the sixth gives to the Governor authority to make emporary appointments to official vacancies. The Convention then adjourned, subject to . the call of the President. Gov. Taylor has issued his proclamation for an election in the Second Congressional District, which will be held on Wednesday, the 27th just.

A MODERN BREAST-PLATE. The Scientific American describes a breast-plate, which, it is said, is being extensively worn by officers and men in the Federal army before Washington. It is composed of spring steel, and is worn between the cloth nd lining of a common military vest. It nas two leaves, which lay at the edges when the vest is buttoned, so as to cover the entire chest. It weighs only three pounds and a half, and can be worn with ease by any officer or soldier during the most active exercise. It is very strong in proportion to its weight, and can resist the thrust of a sword or bayonet, and it will repel the bullets of muskets and pistols at ranges which would otherwise be fatal

ONE LEG MORE FOR HIS COUNTRY .-During the recent visit of Secretary Cameron to New York, a member of the Seventy-ninth regiment, who was in the battle of Bull Run, and near Col. Cameron when he fell, called upon the Secretary. He had been severely wounded and taken prisoner, carried to Riehmond, and there suffered an amputation of one of his legs. He came hobbling into the Secretary's room on crutches, and begged to be permitted to go to the war again, saying that he thought that he could still be of service to the country, even on crutches. Mr. Cameron did not question his capacity, but told him the first preliminary was to get a mate to his remaining extremity. The man said he could not afford that luxury, and insisted upon the validity of crutches. Mr. Cameron then told him to go to a limbseller's and buy the best leg he could find and send the bill to him. The wounded soldier went his way rejoicing.

SOMETHING NEW. Beautiful Illustrated Map

On the Preservation and Culture of Fruit and Ornamental Trees. OPIES are being published; which con-U tain many magnificent Engravings, such as Trees and various kinds of fine Fruit and fruit Trees, some of the finest specimens that

have ever been put on paper. The Fruit frees are set with abundant burdens of fruit, similar to that which nature presents in proper senson. The trees are represented as having their roots running through the soil in a natural position, and the Engravings of Trees are beautiful and grand. It also contains a fine Engraving which represents the mumerable thread-like roots of a vigorous Root Engraving covers ten inches in diameter on paper, and also forms a magnificent engraving, which cannot help but prove gratifying to the eyes of all who may behold it. Such an engraving has never been printed on paper. The engraving of roots not unly proves admirable to the sight of the eye, but is designed to prove of great importance to all who take an interest in the cultivation

of fruits and how to treat fruit trees properly.

A COPY contains Twenty five different Engravings of Trees, Pruits, etc., composed of Evergreens, Forest, Apple, Peach, Dwarf Pyramid Pear and Cherry Trees, &c. The Fruit Engravings comprise Rasp-berries, Gooseberries, Blackberries, Strawberries, Currents, Grapes, Plums, Apricots, Pears, Penches, Apples, etc., and are all colored by hand to represent the natural fruit. and are accompanied with printed matter of great importance, and forms a copy in size 32 by 40 inches, on map paper, with muslin back and face varnished.

COPY, with its numerous engravings, will be gratifying to the eye, and forms an admirable ornament for the wall of the parlor, and will richly beautify any apartment with horticultural matter of much importance and fancy. These copies are published at a very beavy expense.— Twenty five dollars has been paid to a scientific artist for forming the plates of single engravings of trees. roots, etc. But, in order that many can obtain such copies at a trifling figure, the price for a copy will be made so low, that fifteen can now optain copies for the sum that has been paid for single engravings of trees, etc.

A COPY contains privted matter of much importance and great value. Is will tell how to treat all kinds of Fruit Trees to render them very vigorous and productive, even in unfavorable seasons. It will tell how to prepare the soil without inconvenience before planting the trees in ; to strengthen trees much in vigor, and to prove the productivenees of abaudant crops, even in unfavorable seasons or locations, with proper and easy after treatment.

COPY will tell how to prepare and plant all kinds of Fruit and Evergreen Trees, so as to prove successful, with scarcely ever proving a failure in a lot of many trees when properly treated as directed. It will tell how to train and plant Dwarf Penr Trees, It contains the most successful treatments for the culture of the Plum. It will tell how to train and cultivate the

A COPY will tell how to enlivate and freat Strawberries, Currants, Rasaberries. Blackberries Gooscherries, &c. A COPY will tell how to treat Peach trees, to restore their roots healthy from the disastrous effects of worm insects. It will tell how to make use of an application over the soil surrounding the tree to protect the Peach and other tender fruits from the effects of being winter killed in bud. The same application also restores Peach trees from taking

the vellows. The application has the beneficial effects to present the folinge of the trees healthy and the tree vigorous, and proves to the productiveness of lascious fruits .--The application to be applied is But expensive. All have sufficient It will tell how to keep Apples

with much seccess. It will tell

how to treat and manage Pears to mature perfectly, and attain the highest flavor. A COPY presents its numerous pictures all at a glance, and forms such an grasment for the wall as will be admired by all lovers of art, drawn from nature's products.

A COPY can now be obtained for \$1,60 in money or postage-atamps. These copies are published by H. F. M. PETERS. Near Bondersville, Adams County, Pa.
